

- Get access to in-depth remuneration data from named organisations
- Browse up-to-date figures for pay settlements, pay levels and executive compensation
- Find, manipulate and export the information you need quickly and easily

IDSPAY.CO.UK : SIGN UP FOR A FREE WEEKLY ONLINE **WEBEX** DEMONSTRATION

For these demonstrations, the trainer takes control of the screen and explains the site step-by-step. To attend a demonstration you simply need the internet and a telephone line. We will provide you with the live link to the site so you can follow the trainer online whilst they talk you through each stage on the telephone. Sessions last no longer than an hour and are available to all new and potential subscribers– to register [simply click on the links below](#).

Each WebEx session will include an in-depth tutorial on:

- Pay Levels database: How to search by job title/job family, segmenting by sector/industry and region, excluding anonymous data, filtering by salary ranges and individual job records and viewing and exporting your results

- Pay Settlements database: How to search and segment by sector/industry and organisation, filtering by date/settlement increase/type of settlement and employee numbers, manipulating the data table and individual settlement records, using the advanced charting feature and exporting your results

- Executive Compensation database: How to search and segment by market listing/sector/turnover and company size, searching for individual executive roles, searching for individual companies, creating a bespoke comparator group, searching for non-executive directors, using the advanced charting feature and exporting your results
